Explore the Whitsunday's 74 Islands...

Experience **Paradise Now...**

"The Whitsunday Islands today are the same as they were 10 thousand years ago... the white sands you lie in, the lush rainforest you walk in, the Coral Sea you swim in... and the crown that protects these islands from the crashing ocean waves is that of the Great Barrier Reef. These islands nestled in the Coral Sea are indeed paradise on Earth..."
quote from "The Last Islands" by Capt John Bates.
